INTERNATIONAL Water Power & Dam Construction

INDEX 1982

VOLUME THIRTY-FOUR
ISSN 0306-400X

January to December 1982

INDEX

Items in italics are feature articles.
Roman numerals denote months.

A

Algeria—
Soviets to help build dams for .... XII 5

Angola—
Brazil/USSR build project for ... XI 3

Annapolis scheme, Canada, Economical use of Straflo turbines at—Whitaker ..... VII 23

Argentina—
Salto Grande development ..... III 48
Urugua-i scheme, Work begins on ..... X 6
Yacyreta, Confusion at ..... V 13

Australia—
Cethana dam, Instrumenting—Fitzpatrick and Barnett ..... XI 26
Franklin/Gordon dam splits the population ..... XII 7
Glenbawn dam, Raising the height of ..... VI 8
Indonesian studies, Help with ... II 7
Threat to Snowy Mountains power scheme discovered ..... V 5

Austria—
Annabrücke, Aspects of ..... VI 48
Häusling, High-head turbines for ..... IX 9
Hydropower in ..... XII 77
Simulated operation of a hydro plant ..... I 46
Trauen river masterplan ..... VII 52
Weinzödl plant, Design of ..... IX 46
Wölla tunnel, Breakthrough at VII 4

Aswan dam, Egypt, New runners for ..... VIII 3

B

Bali—
Irrigation systems, Improvement in ..... II 7

Bangladesh—
IDA loan to aid irrigation ..... I 6

Bath County, USA, Design factors for the trashracks for—Hamilton and Tullis ..... VIII 16

Benin—
Irrigation and hydro in ..... III 8

Bolivia—
Expansion of two plants in—Zenteno, Williams and Gordon ..... II 26

Brazil—
Balbina plant, Contract awarded for ..... III 8
Building a hydro station in a narrow gorge—Soos ..... VI 20
Cable cranes at Itaipu—Wilke ... II 7
CESP's own lab keeps research costs down ..... VII 51
Itaipu, First h.v.d.c. valve tested at ..... I 3
Itaipu, First stage finished at ..... XII 3
Itaipu hollow gravity dam—Caric, Eigenheer, Uriarte, Szpilman, Gallico, Sarkaria ... V 30
Itaipu runner sets transport record ..... VI 5
Itaipu's transformers tested ..... V 5
Itaipu, Turbines for —de Moraes, Rodriguez, Gummer and del Brenna ..... I 28
Nova Avanhandava dam, Construction of—de Moraes Leme ..... XI 47
Planning and construction sequence at Itaipu—Lyra ..... V 27
Reservoir planning for dams—Budweg ..... V 48
Samuel turbines, Contract signed ..... VIII 6
Segredo, IDB helps with ..... V 13
Small hydro sets for ..... IX 9
Static excitation equipment for Itaipu—Peer and Lubtasch .... IX 25
Três Irmãos, Progress at ..... VII 5
USSR to provide turbines for .... I 4

Brownlee, USA, Adding a fifth turbine—Hougen and Runyan VII 15

Burma—
New dam for ..... VIII 6

C

Canada—
Analysis of a bulb generator structure—Rahman and Hotchkiss ..... VII 31
Annapolis scheme, Economical use of Straflo turbines at—Whitaker ..... VII 23
British Columbia, First link-up for ..... VII 5
Churchill Falls, Profits from, criticized ..... V 5
Dam will reach record height .... V 5
Electricity exports, More planned to USA, ... I 5
French propose to power smelter in ..... X 7
Hydro and the environment ..... VI 48
Low-head prototype water mill linked to grid in ..... XII 76
Montreal Engineering wins design award ..... XII 5
More projects studied for ..... III 6
Peace river project: decision soon ..... XII 8
Provinces win right to transmit energy across borders ..... VII 4
Revelstoke dam, Problems at ... XII 78
Russell dam repairs begin ..... VIII 4
Shawinigan taken over ..... IV 5
Water shortages reduce output... VIII 3

China—
American consultants win contract in ..... V 13
Britain sells micro controller to XII 7
Drought affects crops in the north ..... VI 3
Gezhouba, Generation begins at ..... II 3
Loans for two schemes sought ... II 7
Mao Tiao He, Guidevane erosion at—Li Xue-Zhong ..... II 23
Research centre set up ..... XI 7
Sanxia project approved ..... VIII 3
Tibet exploits Yarlung Zangbo river ..... I 4
US companies beaten by suppliers from ..... XI 5

Colombia—
Environmental study begins ..... II 4
Mini hydro in ..... III 3
Resonant waterhammer: a case study—Perez ..... IV 42
USSR supplies sets to ..... X 4

Concrete—
Corrosion problems with—Smith ..... VI 37
Seals for joints ..... VI 44
Shotcrete setting, Improving the speed of ..... IV 35
Steel-fibre and admixtures ..... V 106
Thermal cracks in, Assessing .... VI 41
Working below freezing point ... III 49

Congo—
Lefini project, Contract awarded for ..... VI 7

Construction equipment—
Aggregate test screen ..... VII 56
Air valves ..... III 52
Bolt anchoring, Cement cartridge system for ..... XII 77
Cable cranes at Itaipu—Wilke ... II 7
Cable sheath repair kit ..... X 52
Compaction plate ..... IV 54
Concrete compression machine III 50
Concrete mixer ..... IX 50
Concrete-pipe cutter ..... IX 52
Concrete pump .....VIII 46
Drill coupling sleeve ..... IV 54
Electronic truck scale ..... XII 80
Equipment transporter ..... IV 54
Eye hook ..... IX 50
Fork lift/crane ..... III 52
Heavy-lift barge crane ..... IX 47
Hydraulic drilling package ..... III 50
Jet grouting in the UK ..... VII 52
Liquid control valve ..... IX 52
Miniature rock drill ..... IX 47
Plant supplement ..... II 39
Portable pumping system ..... VIII 47
Raise-boring system ..... VII 56
Rough terrain crane ..... IX 50
Soil compaction device ..... X 52
Telescopic loader ..... XII 80
Tractor units ..... X 52
Tunnelling rig with extended reach ..... IX 47
Wheel loader ..... VI 44

Control systems—
Automation at hydro plants ..... III 48
Data receiver for level recorder V 108
Governing turbines by microcomputers—Kopacek and Zauner ..... IX 26
Micro controller sold to China by Britain ..... XII 7
Simulating and improving hydro plant control—Fasol and Hoppe ..... V 73
Uprating the Durance-Verdon system, France ..... III 24

Costa Rica—
Corobici plant on stream ..... VIII 4

Czechoslovakia—
Cierny Váh, Largest pumped-storage plant of—Motlik ..... X 36
Nagymaros-Gabchikovo scheme behind schedule ..... III 25
Turbine manufacture in ..... I 6

D

Dams, Concrete—
Arch dam failures ..... V 106
Castlehill, Scotland, wins commendation ..... I 3
Clyde dam, New Zealand, wins approval ..... I 5
Geodetic deformation measure-

ments ..... VI 47
Itaipu, First stage finished at ..... XII 3
Itaipu hollow gravity dam—Caric, Eigenheer, Uriarte, Szpilman, Gallico and Sarkaria ..... V 30
Itaipu, Planning and construction sequence at—Lyra ..... V 27
Palagnedra dam, Switzerland, Overtopping of—Bruschin, Bauer, Delley and Trucco ..... I 13
Peru's largest dam threatened by landslide ..... VI 3
Record height will be reached in Canada ..... V 5
Safety monitoring of concrete dams —Fanelli and Giuseppetti ..... XI 31
Stress deformation of ..... I 46
Strontia dam, Denver, USA, nears completion ..... X 3
Surveys at Sayano-Shushensk, USSR ..... XI 56
Uplift in gravity dams ..... I 46
Victoria scheme, Sri Lanka, Planning—Bennett and Carpenter ..... V 67

Dams, Earth—
Anglo-Swedish group to build Indonesian plant ..... VIII 4
Cethana, Australia, Instrumentation of—Fitzpatrick and Barnett ..... XI 26
Collapse of dam, USA, Four die after ..... IX 3
Dam bursts in freak rainfall in Spain ..... XII 7
Deerfield dam, USA, Safety modifications at ..... VIII 6
Inspection galleries in—Blind .... IV 25
Inspection galleries, Value of—Kutzner ..... V 68
La Mornaghia dam, Tunisia, inaugurated ..... XI 3
Megget, Scotland, Ductile iron pipework for ..... VI 16
Naresuan dam commissioned in Thailand ..... V 5
Nova Avanhandava dam, Brazil, Construction of—de Moraes Leme ..... XI 47
Salal dam, India, Clay chute at—Chadha ..... VI 30
Stability of loose fill dams ..... IX 46
Storvatn dam, Norway, Filling starts on ..... X 6

Dams, General—
Chiew Larn site, Thailand, attacked by insurgents ..... VIII 3
Clyde dam, New Zealand, Private contractors for ..... I 5
Computer looks at tailings dams V 105
Deformation measurements ..... I 46
Daule-Peripa dam in Ecuador starts ..... IX 9
Ethiopia, Large dam planned for ..... X 7
Franklin dam, Decision deferred on ..... II 3
French win two African contracts ..... XII 11
Garbage stops use of French dam .....VI 5
Germany, Dams in ..... VI 47
Gezhouba, China, Generation begins at ..... II 3
Grouting for dams and tunnels—Kennard ..... V 50
Impervious layer for a French dam ..... IV 52
Kulekhani, Nepal, Cracks delay generation at ..... V 3
Mahaweli, Sri Lanka, Work accelerates ..... IV 9
Major dams of the world (Tables) ..... V 93
Olmos dam, USA, Strengthening ..... IX 45
Oman's dam will help aquifer recharge ..... IV 5
Optimum profiles of gravity dams—Joshi ..... IX 35
Raising dam to triple reservoir volume ..... VI 8
Repairs ease power shortage .... IV 5
Revelstoke dam, USA, Problems at ..... XII 78
Rhône, France, Last two dams to be built on ..... III 6
Russell dam repairs, Canada .... VIII 4
Safety aspects in the design and inspection of—Serafim ..... V 45
Salto Grande, Argentina/Uruguay, development ..... III 48
San Luis slide repairs under way II 3
Scandinavians win contract for Ecuador ..... VII 7
Soviets to help build Algerian dams ..... XII 5
Steel-fibre concretes and admixtures ..... V 106
Três Irmãos, Brazil, Progress at VII 5
Upper Krishna's, India, First stage complete at ..... XI 7
US Government hesitates over safety ..... I 3

Dam, Safety—
Arch dam safety ..... V 106
Deerfield dam, USA, Modifications at ..... VII 6
Design and inspection of dams, Aspects of—Serafim ..... V 45
Long-term monitoring of embankment dams in Britain—Penman and Kennard XI 19
Safety monitoring of concrete dams—Fanelli and Giuseppetti ..... XI 31
US government hesitates over problems ..... I 3

Dinorwic, Wales, Progress at ..... III 36

Drakensberg, S. Africa, Design of—Pyzikowski ..... X 33
Correction to above ..... XII 7

E

Ecuador—
Daule-Peripa dam started ..... IX 9
Scandinavians win contract for VII 7

Egypt—
Aswan, New runners for ..... VIII 3
Studies for more hydro ..... I 3

Electrical equipment—
A.c. generator range ..... III 50
Bulb generator structure, Analysis of—Rahman and Hotchkiss ..... VII 31
Bearings, Improving, for turbogenerators ..... VII 52
D.c. transmission helps a.c. generation ..... IX 14
Generator bearing repair at Chibro, India ..... II 48
H.v.d.c. valve tested for Itaipu, Brazil ..... I 3
Itaipu's transformers tested ..... V 5
Mexicans order Swedish generators ..... VIII 6
Portable generator/light source IX 50
Static excitation equipment for Itaipu—Peer and Lubasch ..... IX 25
Stornorrfors station to be extended ..... IX 7
Uprating and rewinding hydro generators—Ridley ..... IX 31

Electricity transmission—
Canada plans to export to New York ..... I 5
D.c. transmission helps a.c. generation ..... IX 14
Low voltage overhead lines, Construction of ..... VII 54
Powerline contract awarded in Mozambique ..... VII 7
Provinces win right to transmit energy across borders ..... VII 4

Environment—
Alta, Norway, protesters are forced to give way at ..... II 4
Colombia begins environmental study ..... II 4
EDF and ecologists, Relations improve between ..... IX 3
Fish life in French rivers ..... XI 56
Franklin dam, Conservationists lose over ..... IX 7
Franklin/Gordon dam splits Australians ..... XII 7
Franklin/Gordon hydro issue defeats Tasmanian government VII 6
Hydro and ..... VI 48
Revelstoke dam, USA, Problems at ..... XII 78
Swaziland's Lupohlo-Ezulwini scheme meets opposition ..... V 7
Tyres for bank protection ..... II 48
Verdon, France, Battles again at ..... VII 4

Ethiopia—
Large dam planned for ..... X 7

European canal—
Main-Danube link ..... III 48
River link urged ..... V 5

F

Finance—
ADB supports small-scale irrigation ..... V 13
Australia helps with Indonesian studies ..... II 7
Bangladesh, Loan for irrigation from IDA for ..... I 6
Batang Ai, Malaysia, ADB loan for ..... I 6
China seeks loans for two schemes ..... II 7
IDA aids India's irrigation ..... II 7
IDA helps with repairs in Haiti X 7
IDB helps with Segredo ..... V 13
Koreans improve Han river quality ..... V 13
Lungga scheme, Loans for ..... IV 9
Mahaweli, Sri Lanka, US aid for XII 11
Nepalese irrigation scheme, ADB finances ..... VIII 5
Sulawesi project, ADB loan for VII 7
Swaziland's hydro, Loans for .... II 7
World Bank changes borrowing and lending policies ..... XI 9
World Bank loans to Indonesia VI 8

Fiji—
Hydro to replace oil in ..... VIII 5

Finland—
Water management, Models aid IX 45
Waterways, Plans for ..... VI 47

Flood control—
Bangladesh irrigation aided ..... I 6
Dams for Malaysia ..... VI 7
Flood propagation times ..... XII 78

Flow duration curves in tropical equatorial regions—Ramsahoye XII 66

France—
Communes hit by floods ..... IV 9
Durance-Verdon system, Uprating the ..... III 24
EDF succeeds in Africa ..... VIII 4
Fish life in rivers of ..... XI 56
Impervious layer for a dam ..... IV 52
Plans for controversial reservoir—Naussac 2 ..... V 7
Reservoir will cover oldest site X 6

Rhône, Last two dams to be built on ..... III 6
Small hydro developments in .... V 106
Use of dam stopped by garbage VI 5
Verdun, Battles again at ..... VII 4

G

Generators *see* Electrical equipment

Germany, Democratic Republic—
New plant adds to peaking capacity ..... III 38

Germany, Federal Republic—
Bulb turbine intake studies ..... V 106
Dams in ..... VI 47
Tyres for bank protection ..... II 48

Ghana—
Kpong engineer wins Ghanaian award ..... X 6

Guatemala—
Chixoy project, Grouting problems at ..... IX 47
Tunnellers overcome difficult geology in ..... IV 38

H

Haiti—
IDA helps with repairs in ..... X 7

Helms, USA, Hydro-fracturing at—Strassburger ..... X 25

Hong Kong—
China provides more water for VIII 4
Pumped-storage, Plans for ..... I 5

Hungary—
Nagymaros-Gabchikovo scheme behind schedule ..... III 25
Water management in ..... VI 48

Hydraulics—
Aeration at high velocity flows—de Pinto, Neidert and Ota ..... II 34
III 42
Aquifers in varied motion ..... IX 46
Compressible and incompressible flow models ..... VII 52
Energy dissipation at high-head spillways ..... III 48
Erosion of jets with cavitation inducers—Janakiram and Syamala Rao ..... VIII 32
Flow duration curves in tropical equatorial regions—Ramsahoye ..... XII 66
Howell-Bunger valves, Performance of ..... VIII 42
Low-head pressure conduit, Characteristics of a—Iliev and Kalchev ..... VIII 28
Montana's Libby dam, USA, Air demand tests at—Hart ..... VII 19
Operating problems of pump stations and powerplants ..... XI 44
Optimising storage operation ... III 48
Plane turbulent wall jets with finite submergence—Rajaratnam and Mura Hari ..... IV 43
Radial gates, Discharge characteristics of—Gill ..... III 38
Resonance in hydropower stations—Jaeger ..... I 20
Resonant waterhammer: a case study—Perez ..... IV 42
Solid transport in mountain streams ..... VII 54
Surges of finite height—Rajaratnam ..... XI 45
Three valves stop locks ..... VIII 43
Turbulence, Physics of ..... VII 54
Uniform flows in elliptical channels—Zhang Yun-Zhong ..... VIII 20

I

ICOLD—
British National Committee annual meeting ..... IV 6
XIV Congress: papers and study tours ..... II 6
XIV Congress, Report of ..... VII 45
VIII 37
XIV Congress, Questions for .... V 9
Elections and decisions at 50th Executive Meeting, Rio ..... VI 6
50th Executive meeting ..... IV 6
Layout of dams in narrow gorges, Conference on ..... IV 6

Incidents and failures—
California floods: small dam fails ..... XI 3
French communes hit by floods IV 9
Italian earthquake, Effects of ... II 48
Palagnedra dam, Switzerland, Overtopping of—Bruschin, Bauer, Delley and Trucco ..... I 13
Paraguay river floods local towns ..... IX 7
Ramganga dam, India, Retaining wall failure at ..... IX 46
Rocky mountains dam, USA, Four die after collapse of ..... IX 3
Ruahihi canal collapse, New Zealand, Cancellation of water rights after ..... VI 5
San Luis slide repairs are under way ..... II 3
Tous dam, Spain, bursts in freak rainfall ..... XII 7

India—
Chambal project extends coverage ..... XI 9
Chibro, Generator bearing repair at ..... II 48
Clay chute at Salal dam—Chadha ..... VI 30
Data for rainfall ..... IV 52
IDA aids irrigation ..... II 7
Irrigation improved ..... IX 9
Irrigation project goes wrong .... IV 3
Khodri trifurcation, Model studies of ..... XII 77
Mini hydro approved for Tamil Nadu ..... III 6
Monsoon rainfall, Storing, in reservoirs—Dhar, Rakhecha and Mandal ..... VI 26
Nepal agrees on Himalayan hydro ..... V 5
Tidal power, India embarks on—Sharma ..... VI 32
Upper Krishna's first stage complete ..... XI 7
Water evaporation in ..... IX 45

Indonesia—
Anglo-Swedish group to build plant in ..... VIII 4
Australia helps with water resource studies ..... II 7
Irrigation improved in ..... XII 11
Loans for two irrigation schemes granted by World Bank ..... VI 8
Sulawesi project, ADB approve loan for ..... VII 7
Tanggani 1 scheme goes ahead V 5

Inspection galleries, Value of—Kutzner ..... V 78

Instruments—
Cethana dam, Australia, Instrumenting—Fitzpatrick and Barnett ..... XI 26
Digital thermometer ..... VI 45
Fast stress analysis without strain ..... VIII 42
Flowmeter range with simple design ..... VIII 46
Flow recorder ..... XII 80
Inclinometer ..... III 52
Supplement ..... XI 39
Long-term monitoring of embankment dams in Britain—Penman and Kennard XI 19
Length-measuring sets ..... XII 80
Magnetic settlement probe ..... VII 56
Norwegian practice in instrumenting dams—Nilsen, Di Biagio and Andresen ..... XI 34
Remote water level monitor ..... IV 54
Vibrating wire transducer ..... VI 44
Water level data logger ..... III 52

Irish Republic—
Wave power may be world's highest in ..... X 4

Irrigation—
ADB supports small-scale schemes ..... V 13
Bali improves its systems ..... II 7
Bangladesh receives aid from IDA ..... I 6
Chambal project, India, extended ..... XI 9
Forecasting water demand ..... IV 52
German help for Thai schemes VI 8
IDA aids India ..... II 7
India, Improvements in ..... IX 9
Indonesia, Improvements in ..... XII 11
Indonesia, Loans for ..... VI 8
Mekong Committee seeks finance for irrigation ..... VI 7
Tarbela's water will yield energy IV 3
Tawa project, India, goes wrong IV 3
Upper Krishna, India, First stage complete at ..... XI 5
Zimbabwe, Study in ..... IV 9

Israel—
Galilee, Hydro station planned for ..... VI 3
Small hydro in ..... XII 5

Itaipu—
Cable cranes at—Wilke ..... II 13
First h.v.d.c. valve tested ..... I 3
First stage finished at ..... XII 3
Hollow gravity dam—Caric, Eigenheer, Uriarte, Szpilman, Gallico, Sarkaria ..... V 30
Planning and construction sequence at—Lyra ..... V 27
Runner sets transport record .... VI 5
Static excitation equipment for—Peer and Lubasch ..... IX 25
Transformers tested ..... V 5
Turbines for—de Moraes, Rodriguez, Gummer and del Brenna ..... I 28

Italy—
Biffi adduction channel, Remedial work on ..... VIII 44
Effects of the earthquake ..... II 48
Multi-stage pump-turbines for Chiotas and Edolo—Bortolan and Peron ..... IX 41
Sediment transport during floods ..... I 46

J

Japan—
Fuji to build Irish wave-powered generators ..... VII 5

K

Kenya—
Energy resources of—Fielder and Berrie ..... IV 39

Kielder—
Contract placed for ..... VIII 5
Hydro plant started ..... XII 5
Preparations for hydropower .... X 3

Korea—
Han river quality improvements V 13

Kotmale dam, Fast work encouraged at ... II 7

L

Lesotho—
Plans to sell water to S. Africa ... III 3

Libby dam, USA, Air demand tests at—Hart ... VII 19

M

Mahaweli, Sri Lanka, Work accelerates at ... IV 9

Malaysia—
Batang Ai, ADB loan for ... I 6
Flood control dams for ... VI 7
Japanese win bids at Batang Ai... III 8
Water project underway in the east of ... XI 9

Materials—
Reinforced concrete strength .... XI 56
Underwater grout ... X 52

Mexico—
Swedish generators ordered ..... VIII 6

Mini-hydro *see* Small hydro

Mozambique—
Cabora Bassa prepares for expansion ... IV 3
French win two African contracts ... XII 11
Power line contract awarded ..... VII 7

Multipurpose schemes—
Benin and Togo, Irrigation and hydro for ... III 8
Nagymaros Gabchikovo scheme behind schedule ... III 25
Sri Lanka pushes Mahaweli scheme ... II 4
Tyuyamuyun, First set ready at III 6

N

Nigeria—
Balfour Beatty wins dam contract in ... XII 11

N. Ireland *see* UK

Nepal—
ADB finances irrigation ... VIII 5
India agrees on Himalayan hydro ... V 5
Kulekhani, Cracks at, delay generation ... V 3
Marsyangdi, Prequalification bids for ... VI 8

Nigeria—
Dam contracts awarded are largest in W. Africa ... VII 7

Norway—
Alta, Protesters are forced to give way at ... II 4
Designing and excavating underground powerplants—Broch IV 19
Filling starts on highest dam in X 6
Instrumenting dams, Practice in—Nilsen, DiBiagio and Andresen ... XI 34
Investigations for longest unlined pressure shaft—Bergh-Christensen and Kjølberg ..... IV 31
Jukla, Surge chamber design for—Bergh-Christensen ..... X 39
Ulla-Førre, Progress at ..... IX 46

New Zealand—
Cancellation of water rights after collapse of canal ... VI 5
Clyde dam, Doubts resolved over ... IX 3
Clyde dam, Private contractors for ... I 5

O

Oman—
Dam will help aquifer recharge IV 5

P

Palagnedra dam, Switzerland, Overtopping of—Bruschin, Bauer, Delley and Trucco ..... I 13

Pakistan—
Tarbela's irrigation water will yield energy ... IV 3
Tarbela, More reinforcements at VIII 6
Kalabagh design, UK companies appointed for ... V 13

Papua New-Guinea—
Japanese concerned at delays in II 5
Power complex proposed ..... VI 7
Villagers warned about hydro ... III 5

Paraguay—
River floods local towns ..... IX 7
Yacyreta, Confusion at ..... V 13

Peru—
Computer-aided evaluation of hydropower—Morariu ..... I 34
Majes, Equipment sent for ..... III 8
Lima expands its power distribution ... VIII 6
Mini hydro in ... III 3
Tablachaca dam threatened by landslide ... VI 3
Trans-Andean transfer will add power to ... VII 7

Philippines—
Agus II scheme in ... II 17
Small schemes planned for ..... VI 8
Spillway aeration of the San Roque project—Eccher and Siegenthaler ..... IX 37

Pipes and penstocks—
Jointing high-pressure pipelines VI 47
Low-head pressure conduit, Characteristics of—Iliev and Kalchev ... VIII 28
Megget dam, Scotland, Ductile iron pipework for ... VI 16
Minimum thickness for handling steel pipes—Parmakian ..... VI 18
Montreal Engineering wins design award ... XII 5
Norway's longest unlined, Investigations for—Bergh-Christensen and Kjølberg ..... IV 31

Optimum diameter of power tunnels and penstocks, Determining—Fahlbusch ... VII 13
Protection for penstocks ..... VI 47

Planned hydro—
Alaskan project authorized ..... VIII 5
Alaska, Studies in ... I 3
American consultants win Chinese contract ... V 13
Batang Ai gets ADB loan ..... I 6
Batang Ai, Japanese win bids at III 8
Brazil/USSR build project for Angola ... XI 3
Canada, More projects studied for ... III 6
Clyde dam, New Zealand, Doubts resolved over ..... IX 3
Clyde dam, New Zealand, wins approval ... I 5
Computer-aided evaluation of Peru's hydropower—Morariu I 34
Egypt looks for more power ..... I 3
Fiji will change oil for hydro ..... VIII 5
French propose to power smelter ... X 7
Galilee, Israel, Station for ..... VI 3
Hong Kong may get pumped storage ... I 5
India and Nepal agree on Himalayas ... V 5
Kalabagh design, UK companies appointed for ... V 13
Kielder prepares for hydro ..... X 3
Kwazulu, Projects planned for III 8
Lefini project, Contract awarded for ... VI 7
Lupohlo-Ezulwini project in Swaziland opposed ... V 5
Marsyangdi, Nepal, Prequalification bids for ... VI 8
Narrow gorge, Building a hydro station in—Soos ... VI 20
Naussac 2—controversial reservoir to be built in France ..... V 5
Peace river project, Canada: decision soon ... XII 8
PNG, Power complex for ..... VI 7
PNG villagers warned about hydro ... III 5
Puerto Rico, Studies underway in ... VI 5
Romania updates hydro plans ... XI 5
Sanxia project, China, approved VIII 3
Spain's largest plant underway XI 3
Tanggani I scheme, Indonesia, goes ahead ... V 5
Transkei project, Contract awarded for ... VI 8
Uruguai scheme started by Argentina ... X 6
Vietnam, Private help sought for hydro project in ... VI 8

Portugal—
Low water levels in ... I 5

Pressure shafts *see* Pipes and penstocks

Puerto Rico—
Hydro studies underway ..... VI 5

Pumped-storage—
Chiotas and Edolo, Italy, Multistage pump-turbines for—Bortolan and Peron ... IX 41
Černy Váh, Largest plant in Czechoslovakia—Motlik ..... X 36
Dinorwic, Wales, Progress at .... III 36
Drakensberg, S. Africa, Design of—Pyzikowski ... X 33
Guijo de Granadilla, Spain, Unique design for—Sirougnet, Ruas, Becke, Randegger and Mez ... X 15
Helms, USA, Hydro-fracturing at—Strassburger ... X 25
Hong Kong, Plans for ..... I 5
Jukla, Norway, Surge chamber design—Bergh-Christensen X 39
Markersbach plant, East Germany, adds to peaking capacity ... III 38
Pump-turbines, Developments in—Schweiger and Gregori ... X 22
Raccoon Mountain, USA, Flow measurements at—March ..... X 42
S. Africa, Plans for ... II 5
Small turbines to supplement grid capacity—Schafer ..... XII 38
Underground pumped hydro, Future of ... XII 73
USSR, First plant for ..... X 3

Pump-turbines *see* Pumped storage

Q, R

Rainfall, Forecasting ..... VIII 44

Remedial Work—
Adduction channel repairs, Italy VIII 44
Aswan, Egypt, New runners for VIII 3
Olmos dam, USA, Strengthening IX 45
Russell dam repairs begin VIII 4
Tarbela, More reinforcements at VIII 6

Research and development—
Atlas Copco diversifies its activities II 45
CESP's own lab, Brazil, keeps costs down VII 51
China sets up research centre XI 7
Concrete, Assessing thermal cracks in VI 41
Concrete, Working with, below freezing point III 49
Pipelines, high-pressure, Jointing of VI 47
Pore pressures in hydraulic structures, Soviet research on VII 54
Sweden, Hydraulic laboratory in I 42
Tidal flow turbine IV 49
Tidal plant with plastic dam X 50
Tyres for bank protection II 48
UK wave options considered III 5
Valves, Howell-Bunger, Improving performance of VIII 42

Reservoirs—
Brazilian, Planning for—Budweg V 48
Covering reservoirs to keep water clean III 49
France, Oldest site to be submerged X 6
Monsoon rainfall in India, Storing—Dhar, Rakhecha, Mandal VI 26

Rock Island, USA, Second powerhouse for—Lucks, Foster, Lyman, Rosenblad, Conlan and Kurtz VII 25

Romania—
Bradisor plant comes on stream X 4
Draganu valley scheme helps five-year plan VIII 3
Update of hydro plans XI 5

Runoff estimates, Use of satellites for IV 49

S

Safety *see* Dam Safety

Scotland—
Castlehill dam wins commendation I 3
Meggett dam, Ductile iron pipework for VI 16
Tidal flow, turbine IV 49

Sedimentation—
Intakes, Intrusion in VII 54
River basins, Sedimentation in VI 48
Floods, Sediment transport during I 46

Small hydro—
Brazil, Small sets for IX 9
British Columbia, Canada, First link-up for VII 5
Experts needed for XII 69
France, Developments in V 106
Flow duration curves in tropical equatorial regions—Ramsahoye XII 66
Francis turbines for small-scale applications—Romcke and Victory XII 61
Installed and planned—Kössler XII 35
Israel goes for, XII 5
Low-head hydro, Development potential for—Nair XII 49
Low-head prototype water mill linked to Canadian grid XII 76
New Hampshire, USA, Scheme started in X 7
Norway, Benefits assessed of building more I 4
Philippines, Plans for VI 8
Rural developments, Energy for—Holland XII 29
South America, Developments in III 3
Sri Lanka, Small schemes save costs in IV 9
Submersible pump, Small hydro from—Giddens, Spittal and Watson XII 33
Tamil Nadu, India, gets approval for scheme III 6
Tea estates, Schemes for II 3
Thailand seeks consultants X 7
Turbine technology XI 56
Yugoslav company, Jugohrom, builds own plants XII 3

Solomon Islands—
Lungga, Loans for IV 9

South Africa—
Cape scheme wins award IV 5
Drakensberg pumped-storage scheme, Design of—Pyzikowski X 33
Kwazulu, Projects planned for III 8
Lesotho may sell water to III 3
Pumped-storage plans II 5
Transkei project, Contract awarded for VI 8
Water supply schemes planned III 8

Scotland *see* UK

Spain—
Guijo de Granadilla, Unique design for—Sirougnet, Ruas, Becke, Randegger and Mez X 15
Largest plant underway in XI 3
Tous dam bursts in freak rainfall XII 7

Spillways—
Aeration at the San Roque project—Eccher and Siegenthaler IX 37
Cavitation, Predicting, in tunnel spillways—Falvey VIII 13

Sri Lanka—
Drought threatens energy III 3
Kotmale, Fast work encouraged at II 7
Kotmale project criticised V 3
Maduru Oya, First stage completed IX 7
Mahaweli scheme goes ahead II 4
Mahaweli, US aid for XII 11
Mahaweli work accelerates IV 9
Mini hydro for tea estates II 3
Small schemes save costs IV 9
Victoria dam: bonus for early finish IX 9
Victoria scheme, Planning—Bennett and Carpenter V 67
World Bank/UN report condemns energy plans VII 4

Sudan—
Nile waters: Sudan's critical resource—Dickinson and Wedgwood I 40
II 31

Swaziland—
Loans granted for hydro in II 7
Lupohlo-Ezulwini scheme meets opposition V 7

Sweden—
Atlas Copco diversifies its activities II 45
Hydro tax imposed XII 8
Lule river, Turbine developments on—Fällström III 27
Research laboratory's restricted resources I 42
Stornorrfors station to be extended IX 7

Switzerland—
Am Giessen plant, New turbine for III 22
Geodetic deformation measurements VI 47
Glacier behaviour, Prediction of IX 46
Palagnedra dam, Overtopping of—Bruschin, Bauer, Delley and Trucco I 13
Zeuzier dam, Abnormal behaviour at VIII 44

T

Tailings dams—
Computer looks at V 105

Tarbela—
Irrigation water will yield energy IV 3
More reinforcements at VIII 6

Tasmania—
Franklin dam, Conservationists lose over IX 7
Franklin dam, Decision deferred on II 3
Franklin/Gordon hydro issue defeats government VII 6

Thailand—
Germans help with hydro schemes VI 8
Hydropower threatened by low rainfall IV 5
Insurgents attack dam site in VIII 3
Irrigation, Finance sought for VI 7
Mini hydro consultants sought by X 7
Naresuan dam commissioned V 5
Thai river basin, Studies to begin on XII 11

Tibet—
Yarlung Zangbo river, Hydropower from I 4

Tidal power—
Annapolis scheme, Use of Straflo turbines at—Whitaker VII 23
Free-flow turbine IV 49
India's plans for—Sharma VI 32
Salford transverse oscillator VI 39
Severn scheme, UK, High nuclear costs favour III 5
US tidal plant has plastic dam X 50

Togo—
Irrigation and hydro for III 8

Tunisia—
La Mornaghia dam inaugurated XI 3

Tunnelling—
Arima dam tunnel, Japan, nears completion XI 5
Bolt anchoring, Cement cartridge system for XII 77
Grouting for dams and tunnels—Kennard V 50
Guatemala, Difficult geology overcome in IV 38
Khodri trifurcation, Model studies of XII 77
Optimum diameter of power tunnels and penstocks, Determining—Fahlbusch VI 13
Reinforcement, Train system speeds up VIII 43
Shotcrete setting, Improving the speed of IV 35
Wölla, Austria, Breakthrough at VII 4

Turbines—
Am Giessen powerplant, Switzerland, New machine for III 22
Aswan, Egypt, New runners for VIII 3

Brownlee dam, USA, Adding a fifth unit to—Hougen, Runyan ..... VII 15
Bulb units, Intake studies ..... V 106
Bulb units, Large characteristics of ..... II 48
Chinese supplier beats US companies ..... XI 5
Chirchick, USSR, Modernizing machines at ..... II 48
Czechs carry on traditional manufacture of ..... I 6
Euphrates plant, Turkey works on ..... I 4
Field testing and optimizing efficiency—Sheldon ..... I 22
Francis blades, Deformation stresses on ..... IV 52
Francis equipment for small-scale applications—Romcke and Victory ..... XII 61
Häusling, Austria, High-head machines for ..... IX 9
Itaipu, Brazil, Turbines for—de Moraes, Rodriguez, Gummer and del Brenna ..... I 28
Kaplan turbines, Controlling with pumps ..... IX 46
Low-head hydraulic turbines, Soviet experience with ..... XII 78
Low-head hydro, Development potential for—Nair ..... XII 49
Lule river, Developments on—Fällström ..... III 27
Mao Tiao He, China, Guidevane erosion at—Li Xue-Zhong .... II 23
Mayfield hydro project, USA, Fourth unit for—Herstrom, Polivka and Russell ..... VII 36
Samuel turbines, Brazil, Contract signed for ..... VIII 6
Simulating and improving hydro plant control—Fasol and Hoppe ..... V 73
USSR supplies sets to Colombia X 4
USSR to supply Brazil ..... I 4
Vibrations, Flow-induced, in large high-head machines—Netsch and Giacometti ..... VIII 21

Turkey—
Karakaya, Progress at ..... I 4

U

Uganda—
Kampala suffers from water shortage ..... IV 3

UK—
Consultants merge in ..... XI 7
Dinorwic, Wales, Progress at .... III 36
Jet grouting in ..... VII 52
Kielder hydro, Contract placed for ..... VIII 5
Kielder plant started ..... XII 5
Kielder, Preparations for hydropower at ..... X 3
Micro controller sold to China ... XII 7
Reservoir ground movements in England, Measuring ..... IV 52
Storage reservoir, England, covered to keep water clean ..... III 49
Wave power, England considers III 5
Wave power in Ireland ..... IV 51

Uprating of plants—
Am Giessen, Switzerland, New turbine for ..... III 22
Bolivian plants, Expanded—Zenteno, Williams and Gordon ..... II 26
Durance-Verdon system, France III 24

Uruguay—
Salto Grande development ..... III 48

USA—
Alaskan project authorized ..... VIII 5
Alaska, power plan includes hydro study ..... I 3
Bath County trashracks, Design factors for—Hamilton and Tullis ..... VIII 16
Brownlee dam, Idaho, Adding a fifth turbine—Hougen and Runyan ..... VII 15
Brownlee's output to be boosted by snowfall ..... IV 5
California floods: small dam fails XI 3
Chinese turbine supplier beats companies' sale ..... XI 5
Dam safety, Government hesitates over ..... I 3
Deerfield dam, Safety modifications at ..... VIII 6
Helms pumped-storage scheme, Hydro-fracturing at—Strassburger ..... X 25
Libby dam, Montana, Air demand tests at—Hart ..... VII 19
Mayfield hydro project, Fourth turbine for—Herstrom, Polivka and Russell ..... VII 36
New Hampshire dam repairs ease power shortages ..... IV 5
New Hampshire, Small schemes started in ..... X 7
Olmos dam, Texas, Strengthening the ..... IX 45
Puerto Rico, Studies underway in ..... VI 5
Raccoon Mountain, Flow measurements at—March ..... X 42
Rock Island second powerhouse—Lucks, Foster, Lyman, Rosenblad, Conlan and Kurtz ..... VII 25
Rocky Mountains Park dam failure ..... IX 3
San Luis slide repairs under way II 3
Strontia dam, Denver, nears completion ..... X 3
Water supply scheme generates electricity ..... XII 3

USSR—
Arch dams, Stress deformations of ..... I 46
Chirchick, Modernizing machines at ..... II 48
High-head spillways, Energy dissipation at ..... III 48
Low-head hydraulic turbines, Experience in ..... XII 78
Machines supplied to Colombia X 4
Pumped-storage plant, First ..... X 3
Soviet-Brazilian agreement on turbines for Brazil ..... I 4
Sayano-Shushensk, Surveys at XI 56
Tyuyamuyun, First set ready at III 6

V

Valves, Waterflow control ..... VI 29

Victoria dam—
Early finish, Bonuses offered for IX 9
Planning of—Bennett and Carpenter ..... V 67

Vietnam—
Hydro projects, Finance sought for ..... VI 8
Irrigation, Finance sought for ... VI 7

W,X

Wales *see* UK

Water Resources—
Nile waters: Sudan's critical resource—Dickinson and Wedgwood ..... I 40
II 31

Water supply—
Cape scheme, S. Africa, wins, award ..... IV 5
Dew, water extraction from, Studies on ..... V 105
East Malaysia water project underway ..... XI 9
Electricity generated from US supply scheme ..... XII 3
Hong Kong gets more water from China ..... VIII 4
S. Africa plans two new schemes III 8

Wave power—
Ireland could have substantial resources ..... IV 51
Irish Republic could have world's highest ..... X 4
Irish wave-powered generators for Fuji ..... VII 5
UK options considered ..... III 5

Y

Yacyreta, Argentina/Paraguay, Confusion at ..... V 13

Yugoslavia—
Jugohrom builds its own small plants ..... XII 3

Z

Zimbabwe—
French win contract in ..... XII 11
Irrigation study in ..... IV 9

Comment

Developing pumped-storage ..... X 13
German view of dam safety—Blind ..... III 21
Monitoring dams and their foundations ..... IX 17
Now for the XV (ICOLD Congress) ..... VII 13
Small-scale hydro needs high grade engineers ..... XII 15
Underground work can help the environment—Girnau ..... IV 17

Correspondence

Synchronous machines—Walker IX 52

Book reviews
